

BED BUG BLASTER™

For Ultimate Control of Bed Bugs, Fleas and Mites

Description

Bed Bug Blaster™ controls bed bugs, mites, fleas, lice and chiggers. Made from 100% non-toxic plant based, renewable source materials. Unlike traditional products that affect the insect's endocrine system, Bed Bug Blaster blocks the respiratory system

resulting in suffocation. Bed Bug Blaster has a light, pleasant aroma, assuring comfortable, habitable space for family and guests. Nano-sized, soap-like particles called micelles make our product exceptionally effective, but non-toxic and gentle. Safe for use around people with hyper-sensitive skin and fully biodegradable. The product will not affect the fiber or color of bedding materials and will not adversely affect indoor or outdoor environment quality.

Directions for Use

Infestations: Use a Sandia 3-gallon spotter with heat, fogger or similar dispersal system. Generously spray bedding, standing mattress on end spraying every single side, including all piping and mattress seams. Spray the room and surrounding areas, especially along baseboards where the carpet meets the wall. Repeat daily for 3 days to break the insect life cycle.

Maintenance: Housekeeping should thoroughly spray mattress and bedding daily, using a trigger spray bottle set to a fine mist.

Designed For:

- Bedding
- Rooms
- Closets
- Doorways
- Hallways
- HVAC Vents
- Housekeeping Areas
- Other Infested Areas

Used By:

- Hotels
- Motels
- Prisons
- Hospitals
- Missions
- Institutions

Product Specifications:

Active Ingredients:	26%
Fumes:	None
Color:	Slightly Opaque
Solubility:	100%
Odor:	Slight Peppermint
Emulsification:	Excellent
Base:	Plant Extract
Detergency:	Excellent
pH:	8.8
Rinsing:	Complete
Viscosity:	Water
Biodegradability:	98.98%
Foam:	Low
Storage:	1 year
Abrasives:	None
Weight:	8.345 lbs/gal.
Phosphates:	None
Freeze/Thaw:	Keep from freezing

Packaging:

1-Gallon Bottles (BBB-1):
packed 4 per case

1-Quart Spray Bottles (BBB-32):
packed 12 per case

Hazard Rating:

4 - Extreme	0	Flammability Rating
3 - High	0	Health Hazard Rating
2 - Moderate	0	Reactivity Rating
1 - Slight	0	Special
0 - Insignificant
